

# The Moorfields Safe Surgery System designed by P.T. Khaw

From **Duckworth & Kent**, the range of instruments designed by Prof. Khaw at Moorfields Eye Hospital is a complete set allowing the surgeon to control drainage from the bleb post-operatively with the unique Suture Control Forceps. Available as complete set or as individual instruments.

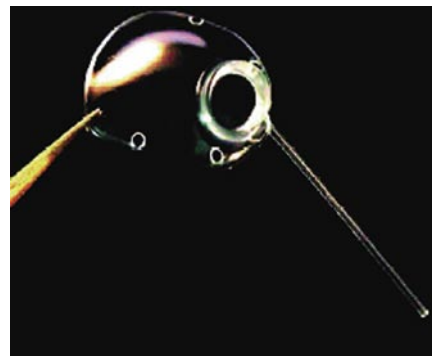

Code	Description	Qty
	<b>Khaw Trabeculectomy Set (D&amp;K)</b>	
2-502	Transconjunctival Adjustable Suture Control Forceps	1
2-686	Small Conjunctival Clamp	1
2-687	Large Conjunctival Clamp	1
7-101	Small Descemet Membrane Punch	1
7-102	Large Descemet Membrane Punch	1
9-576	Standard Glaucoma Speculum	1
9-5764	Small Glaucoma Speculum	1

## Feather Blades for accurate depth cutting of trabeculectomy flap

Code	Description	Qty
	<b>Feather Micrometer</b>	
7330G	0.30mm Micrometer Knife (Reusable)	5
7335G	0.35 mm Micrometer Knife (Reusable)	5
7340G	0.40 mm Micrometer Knife (Reusable)	5
7355G	0.55 mm Micrometer Knife (Reusable)	5
7360G	0.60 mm Micrometer Knife (Reusable)	5

# Molteno Drainage Devices

**Molteno Ophthalmic Ltd**, a private limited liability company, was established in 1982 to manufacture and distribute high quality ophthalmic surgery medical devices. Molteno® Implants are the treatment of choice for severe and complex cases of glaucoma. These are cases where standard drainage procedures have failed or have a poor prognosis. They include failed trabeculectomy, buphthalmos and juvenile glaucoma, neovascular glaucoma and glaucoma secondary to uveitis, traumatic glaucoma, cataract with glaucoma and high risk cases of primary glaucoma.

The latest low-profile design Molteno3® has recently been added to the range.

- The new Molteno3® has been completely redesigned reflecting the latest advances in glaucoma research
- Is very easy to insert reducing surgery times by up to 20%
- Requires only single quadrant surgery

**Please contact your local DFV office for more information on the latest Molteno Drainage Device.**
