

L.R.I. Instruments

Limbal Relaxing Incisions

Moving the relaxing incisions off the cornea to the limbus creates limbal relaxing incisions (LRIs). LRIs can be used with any type of cataract incision, show definite advantages compared with previous techniques and result in more regular corneal topographies with less corneal distortion or irregularity. Effective in patients with low or moderate astigmatism (3 D or less).

Now with the choice of diamond or stainless steel Micrometer blades from **Duckworth & Kent** and **Feather** respectively along with Duckworth & Kent's range of Degree Markers and instruments, DFV can cater for all L.R.I. requirements.

Code	Description	Qty / Box
	Microkeratomes & Accessories	
7340G	Feather Micrometer Knife 0.40 mm (Reusable)	5
7355G	Feather Micrometer Knife 0.55mm (Reusable)	5
7360G	Feather Micrometer Knife 0.60mm (Reusable)	5
	Packard-Rosen L.R.I. Set (Duckworth & Kent)	
4-621	L.R.I. Diamond Knife (60° Lance Blade)	1
9-706	L.R.I. Degree Marker/Fixation 12mm	1
9-706-1	L.R.I. Degree Marker/Fixation 13mm	1
9-706-2	L.R.I. Degree Marker/Fixation 14mm	1
	Wallace L.R.I. Set (Duckworth & Kent)	
9705R	Wallace-Mendez Degree Gauge	1
2-1381D	Duckworth & Kent Collibri Forceps	1
4-620	Wallace Diamond Knife 1.0mm Lance	1

Amoils Epithelial Scrubbers

DFV Code	Description	Qty/Box
INNOVA - 140	ARES-ST-M3 Amoils Epithelial Scrubber Kit. Myopic 6.3mm	1
INNOVA - 141	ARES-ST-H3 Amoils Epithelial Scrubber Kit. Hyperopic 8.3mm	1

Network Lasik Absorption Products

Processes have been developed by Network for the production of specialised products such as their LASIK programme. The latest designs of eye spears give a cleaner, wider, and more absorbent eye spear which is ideal for all ophthalmic procedures.

DFV Code	Description	Qty/Box
	Surgical Sponges – Refractive – (Particulate Free)	
NW-260	40-800 Lasik Spear – Classic	20 pks of 2
NW-270	40-830 Lasik – Drain (42x17x11.5mm opening)	20 pks of 2
NW-258	40-831 Lasik – Drain (40x14x10.5mm opening)	20 pks of 2
NW-256	40-890 Lasik Wipe (50 x 75mm)	20 pks of 2
NW-264	40-820 Lasik Shield (9mm dia. 7mm edge)	20 pks of 2
NW-266	40-821 Lasik Shield (8mm dia. 6mm edge)	20 pks of 2
NW-268	40-822 Lasik Shield (4mm dia. 8mm edge)	20 pks of 2
NW-262	40-804 Lasik Disk	20 pks of 2

DFV Lasik Cannulae

DFV Code	Description	Qty/Box
	Surgical Sponges – Refractive – (Particulate Free)	
M2801	25g x 22mm Lin Lasik Cannula	10
M2802	25g x 29mm Buratto Lasik Irrigating Cannula	10
M2811	21g x 22mm Lasik Irrigating Cannula. Formed 11mm from tip; tapered and flattened in horizontal plane	10
M2812	25g x 22mm Lasik Irrigating Cannula. Formed 9mm from tip; tapered and flattened in horizontal plane	10
M2804	25g x 22mm Lasik Irrigating Cannula. Formed 7mm from tip; six 0.15mm ports at 2, 4 and 6mm from tip	10
M2817	27g x 22mm Lasik Irrigating Cannula. Formed 9mm from tip; four 0.15mm ports at 2 and 4mm from tip	10
M2818	27g x 22mm Lasik Irrigating Cannula. Angled at 90° 7mm from tip; flattened 2mm from tip	10
